

Professional and Durable Labelling Solution

P-touch

Leading the Way in Labelling Innovation

Why Choose Brother?

A trusted global leader in labelling innovation

For over 30 years, Brother has been at the forefront of labelling technology. Since creating the world's first electronic label printer in 1988, Brother has continued to develop ground-breaking labelling solutions which are renowned for their unsurpassed quality, reliability, and cost-effectiveness.

Today, Brother remains dedicated to those core values while delivering innovations in wireless connectivity and mobile productivity across its broad range of professional labelling solutions.

As a result, Brother labelling offerings aren't just the most dependable solutions in the world, they're also the smartest.

More than 100 years later, we've grown into a multinational corporation – but the same spirit of experimentation and commitment to creativity remains. We continue to take pride in creating innovative, expertly-built sewing, embroidery and quilting machines suited to all skill levels. So whether you're a keen beginner or a seasoned pro, we're always at your side.

Brother offers a three-year supplier warranty on sewing machines. This warranty is valid for three years from the purchase date and covers defects in manufacturing and materials under normal use.

Durable Laminated Label for harsh environment

HAVE YOU ENCOUNTERED THESE PROBLEMS?

1 Text was not readable and label doesn't look good

2 Label didn't last long due to harsh environment

Tip 2: Auto-Lamination Technology: The Key to Durable Labels

General Applications

Available in a wide range of widths and colours, and laminated to resist the wear and tear of handling over the years, Brother label tapes are perfect for identifying the contents of items at home, school, or the office.

Asset Tags

Effortlessly identify every asset in your organisation by creating professional and easy-to-apply asset labels. Brother's range of label printers and durable laminated labels help businesses quickly and effectively label IT equipment and other assets with clear and lasting details.

Electrical

Brother's labelling range allows electricians and technicians to create professional identification of cables, switch panels, patch panels and distribution boards - all using durable laminated labels that come in different size and colours suited to your industrial needs.

Telecom & Data Communication

Designed to deliver high quality, durable laminated labels that withstand abrasions, water, spills, heat, cold and other harsh environments, Brother is the preferred choice for the installation and identification of voice and data cables in the telecom and datacom industry.

Manufacturing

Throughout the manufacturing process, labels are subjected to the most extreme conditions. Brother's durable laminated labels remain affixed and clearly legible even when constantly exposed to high-pressure steam, grease and lubricants, abrasion, grit, grime and many industrial solvents.

Tracing Labels

Streamline the traceability of manufacturing lots using QR code labels instead of manually recording the details of each production step. Brother allows you to effortlessly create QR code tracing labels on-demand, making it easy to track manufacturing lot details if faults are reported, and to identify which lots are affected.

Next Maintenance Date: August 15th, 2015	

Calibration Labels

Ensure the accuracy and precision of your measurement tools to minimise errors and reduce costs. Brother labelling solutions are ideal for creating durable, laminated calibration labels that remind users of the next maintenance date for their precision equipment.

Eliminate waste in your workflow and reduce downtime across your factory floor. Brother labelling tools make it easy to create professional, long-lasting maintenance, warning and instructional labels.

Warehouse and Logistic

Count on Brother's industrial- quality labelling solutions for use in tough warehouse conditions. Tested to resist chemical exposures, extreme temperatures and abrasion, Brother's laminated labels stay secured and legible on even the most challenging of environments.

Healthcare and Laboratory

Brother laminated labels are ideal for the healthcare industry where labels are constantly being exposed to chemicals, abrasions, and extreme temperatures. For added security, we offer tamper-evident materials to reveal if a calibration or security label has been meddled with.

Scan to Print by Barcode Reader

Print from PLC Easily and Economically

HAVE YOU ENCOUNTERED THESE PROBLEMS?

SOLUTION: SCAN TO PRINT

Before: More Tasks, More Risks

After: Less Tasks, Less Risks

Step 1: Effortlessly design labels with free editor software

Step 2: Simplify PLC programming with coding samples

Versatile Label Design Software

Create Labels Easily and Effectively

 P-touch Editor has a user-friendly interface

 Easy to make QR code

 Easy to print different data labels at once from database

1. Create your own template (or download templates)

2. Connect with Database file

Select Database
Select the database to be connected;

3. Link the data to the object

Item	Serial
Projector	AS021AB
Laptop	AS022AB
Monitor	AS023AB

4. Print the selected contents

	Item	Serial
☒	1	Projector AS021AB
☐	2	Laptop AS022AB
☐	3	Monitor AS023AB

P-Touch Application

Design & print 2

Choose from a variety of pre-made templates in several categories including Kitchen, Storage, Home Office, Garage & Garden, and more. You can also design your own labels for the perfect custom look.

Ptouch Pro Label Tools

Wirelessly Design and Print Industrial Labels, At Your Fingertips

Design and create labels made for industrial work, right from the palm of your hand. Easily access industry-standard templates or create, customize and serialize, all with one easy-to-use mobile app. In the field, on-the-go, and anywhere the job takes you.

Brother iPrint & Label

Brother iPrint & Label is FREE app that enables you to easily print labels from your Apple® iPhone®, iPad®, iPod touch® or Android™ mobile devices on your wireless network. It's convenient and easy to use. Just download the app and it will automatically search for supported device on your local wireless network.

All this Brother Mobile Apps is available to download free at

b-PAC Software Development Kit (SDK)

P-touch Editor is a good solution for making professional looking, custom labels. However, when the data is managed in other software applications such as Microsoft® Excel® or Access®, it is sometimes more than to run P-touch Editor as a second application. With b-PAC, you can continue to use the programs that you are already comfortable with and print P-touch labels without re-entering data or running separate programs.
